OBJECTIVE

To work in a challenging and dynamic environment and keep value to the organization that I represent and serve, while concurrently upgrading my skills and knowledge

PROJECTS

MINI PROJECTS

- Desktop,Laptop and it's Accessories Buying and Profit Generation System

In this Mini project, we have used C++ programming language. We have used switch cases. We have provided different modules. Also we have used the getch() function for password invisible logic.

- Simple website of University using pure HTML AND CSS

This website is a frontend website there is no back-end involved in it .I have used pure HTML5 and CSS language
